Speaking at the meeting, Khalid Yahudov, Chairman of the Accreditation Committee for the Azerbaijan State Oil Academy, noted the organization of learning program of the Academy and its analysis in conformity with the demand for standards of state education. Moreover, there was studied the level of knowledge of last course students to learn the quality of expert training. He noted that in accordance with the decision of Scientific Council of the university, 62 specialties were presented for attestation from the Bachelor and 60 from the Master levels. Kh. Yahubov also gave information on achievement indicators of students, and number of staff of the Academy. In addition, he underlined the highest and lowest quality indicators on specialties, and recommendations gave by the Committee.

Education Minister, Misir Mardanov informed that recently there has been marked the 90th anniversary of the Academy, and emphasized the importance of discussion of the Committee's decision at Scientific Council of Academy. He expressed belief in positive impact of Commission's decision on the quality of training at the Academy. The Minister also underlined the possibility of involvement the international experts in the accreditation of universities.

At the end, there were exchanged views on discussed issue, and questions of participants were answered.
