

---

The main goal of the contest is to identify the scientific and technical potential of children and youngsters, stimulate their creativity and organize experience exchange among them. The contest is held according to the Order 165 of the Ministry of Education of 6 February 2012 on 7 zones, including districts (cities) and Republican stages. 209 works were submitted to the Republican stage of the contest, which was conducted in 15 categories and 5 types of technical creativity. 45 participants were announced a winner by the Jury.

At first, the participants have visited the monument of national leader Heydar Aliyev erected in front of Lyceum and put flowers on it.

Next, participants attended the exhibition of handmade works of members of circles of technical creativity centers operating in the Republic.

The event was opened by the Deputy Education Minister Gulu Novruzov. He highly praised aircraft and cosmic models and expansion of activity of circles of technical creativity centers in recent years. He stressed the importance of increasing the number of members of technical creativity centers and underlined that the field of technology and engineering is one of the priority fields of State programme for study abroad. According to him, the members of circles gave priority to the models of military technology, which is an obvious indicator for their upbringing in the spirit of patriotism. He praised that as a part of important steps taken to protect the territorial integrity of the country. Mr. G. Novruzov congratulated the winners and expressed his hope that they will become a professional engineer in the future.

Chair of the Republican Voluntary Military Patriotism Technical Sport Society, General-Major Novruzali Orujov highly praised the military patriotic spirit among pupils and talked about the importance of the contest. Noting the preparation of models for military technology requires a high skill. N. Orujov congratulated the winners and wished them every success.

At the end, the winners of I, II and III places of the Republican stage of a contest were awarded diplomas and presents of the Ministry of Education.
