

---

28 28 587 students are studying, 4 2062 managers and teaching staff, as well as 1 3453 training officers working in these establishments.

12 national vocational schools were completely refurbished and 2 new education establishments were constructed within "State Program on development of vocational education (2007-2012)" and "State program on development of Baku and its settlements." Over the past 3 years, 30 training officers have been trained in Turkey.

The project "Development of initial vocational education in the field of agriculture" was launched in cooperation with the European Commission according to which the Government of Germany was selected as a partner country. The budget for the two-year project is 1.2 million euros.
