
The goal of the contest is to form ICT-based individual education.

It was decided to hold an annual contest among the heads and teachers of general education establishments subordinated to the Ministry of Education. The contest will be held in two levels. Works submitted to the contest will be assessed based on the relevant criterion and winners will be awarded.

More detailed information about the contest is available on the website: www.musabiqe.edu.az. Those wishing to participate in the contest should submit their projects until 8 February.

Each pupil from one class of teachers, who will win the contest, will receive a netbook.
