The event was attended by Education Minister Misir Mardanov, representatives of the Ministry and Institute for Educational Problems, directors of secondary schools of Baku and others.

Speaking at the event Head of Preschool Curriculum Department of Institute for Educational Problems Lalezar Jafarova reported on results of implemented researches. She gave information on situation regarding provision of schools with relevant equipments, visual aids and didactic materials to prepare five-year-olds for school. Referring to an issue on preparation of five-year-olds for school in short-term training groups, L. Jafarova talked about abundance of consistency level between preschool education establishments and schools. Department Head informed about the results of conducted researches, relevant statistics and put forward some proposals.

In his speech at the event, Education Minister Misir Mardanov talked about the current situation of preschool education in the country, basic problems and issues needed to be solved. The Minister underlined the importance of educational works implemented with children in preschool education establishments and in families. According to him, preschool education plays an important role in mental development and formation of the child, and that is why many countries around the world are paying special attention to the development of preschool education. He talked about experiences of number of developed countries in the preschool education field and stressed the need for benefiting from this experience.

At the event, a number of speeches on the theme was made by the attendees and voiced some suggestions.
