

---

It should be noted that students in grades 9-11 of secondary schools of Baku and Sumgayit have participated in the contest jointly organized by Education, Youth and Sport ministries of Azerbaijan and Organization Madad.

At the end of a two-day competition the winners revealed by the jury were awarded cash prizes, diplomas and medals.

After the award ceremony, 5 students among the winners were selected by the jury to take part in the International Science and Engineering Fair to be held in May this year in Phoenix, Arizona, USA.

In his speech at the ceremony, Education Minister Misir Mardanov underlined that the contest was held amid a tense struggle and students took a more active role in the contest compared to the last year. He expressed his hope that the contest will be more intense next year and thanked Manager of Intel ISEE in CIS Tatyana Nanayeva, who visited Baku to observe the contest, and others, who contributed to the organization of the contest. The Minister congratulated the winners and wished them every success in their future endeavors.
