

---

It should be noted that, these students have won 4 bronze medals in the International Olympiad in Natural Sciences held in Tehran, Islamic Republic of Iran, from 1 to 10 December of 2012, one silver, 3 bronze medals and 2 incentive certificates in Jautikov International Physics, Mathematics and Information Sciences Olympiad held in Almaty, Kazakhstan, from 13 to 20 January of 2013.

Education Minister Misir Mardanov opened the ceremony by warmly welcoming the attendees. According to him, one of the priority directions of a state policy is to identify talented children and youth, and provide special attention and care to them. Noting this work is implemented in the republic within different programs, Mr. Mardanov highly praised the activity of Cag Ogretim Isletmeleri Company in the relevant field.

Moreover, the Minister talked about the importance of students' participation in international knowledge competitions, contests and Olympiads, and underlined the need to prepare for each Olympiad at least one year before based on a special program. He also underlined the importance of building relationships between universities, scientific and research institutes of ANAS and schools in order to achieve a success in these competitions.

According to Minister Mardanov, students of Cag Ogretim Isletmeleri Company Lyceums have always been a role model for success in the knowledge competitions, and at the end of his speech, he expressed his gratitude to the company management and personnel. The Minister congratulated students distinguished at the international Olympiads, their teachers and parents, and wished students great success in the most prestigious knowledge competitions that will be held in the future.

Students, who were successful in the international Olympiads, were awarded presents in the event.
