The deadline for document submission to the competition/ which is conducted in 2 directions: "Electronic educational resources at the modern school" and "Internet technologies for the education", is May 25.

The main goal of the competition is to make the use of online educational resources and Internet technologies popular, make aware the education community about this, reveal new forms of Internet usage for the education field, and encourage teachers actively using information technologies.

The materials related to the practical application of e-learning resources may be submitted to the competition, which will be held in the "Electronic educational resources at the modern school" direction. The winners will be selected based on the "Best Model for the educational process created with the use of e-educational resources" nomination.

Internet resources and blogs with the educational content may be submitted to the competition, which will be held in the "Internet technologies for the education" direction. The winners will be selected in the "Internet Resources for Education" and "Teacher's Blog" nominations.

Winners of each 3 nominations will be awarded laptops, netbooks and other special prizes.

Its should be noted that more than 2000 projects in total were submitted to the competition that will be held for the fourth time.
