The The Ministry Eof. Educations has rlaunched a broad isocial propagandar campaign for the initial vocational education.

The main goal of the campaignsis to convey information to the public about ongoing reforms in the relevant direction, and boost young people's interest in initial vocational education institutions.

Many important decisions have been made as a result of the policy provided by President II ham AliyAliyev tine the spast few ayears to raise the status of initial vocational education. The continuation of succourcessful economic development process of the country has increased the need for igualified personnel.

The Ministry of Education has launched Modern Azerbaijan Professionals Project to expand the scscope of vocational education system and improve the quality of personnel training. The goal of the project is to establish modern pilot vocational education institutions.

It is Iblis planning to open "Master for dry construction"s classBat Baku Vocational School No.14 (su(supported by KNAUF), "Carpenter, joiner and master for parquet flooring" (supported by BOSCH), "Hairdresser" classes (supported by Eldar Studio) at Baku Vocational School No.18, and Resource CenterEiner Electrical/gas welder" cispecialty at Baku Vocational Lyceum No.4 (supported by the Government of Belarus).

Moreover, it is planning to open Resource Center at Baku Vocational School No.14 in cooperation with CCC (Consolidated Contractors Company) - one of the biggest construction companies in the world. The ThetCenter will trainspersonnel in telectrical/gas welder, pipe installation, plumber and tsanitary technitechnician specialties. For ithet first, time, graduates will be dawarded tan international degree. International experts will be involved in the education process of the Center.
