
In the additional placement there were participated the persons achieving admission points in the teachers' employment competition, but not employed within 2013 – 2014 academic years.

It's to note that analysis have been conducted regarding 2162 vacancies submitted to the Ministry of Education by local education units and 1580 necessary vacancies have been defined. On November 22-26, 2013 the vacancies had chance of electronic selection. 307 persons out of 1257 participated in this stage acquired the right to be employed to the selected vacancy. On November 28, 2013 they were interviewed and 165 persons were decided to be employed.

Regarding the unemployed vacancies, the Ministry of Education took corrective measures jointly with local education units. So, teachers were invited from other schools to work as a substitution, contracts with teachers reaching relevant age limit were extended, and temporary contracts were signed with specialized teachers by the end of academic year.
