

---

During the presentation are given detailed information about the rules of the teaching on the credit system and received exhaustive answers to the questions (whether the student has to bring an additional fee for academic debt liquidation on not prerequisite subject? Whether the student has to bring an additional fee for academic debt liquidation on a prerequisite subject? What happens if, after the expiry of a certain period of training still there are academic debts? Whether students can receive subjects from the top courses, and in this case, whether the student has to pay in addition?) that interested students.

[Rules of education on the basis of the credit system \(video - presentation\)](#)
