

---

The Ministry of Education gives an important value to expansion of works on informing the public on the above-mentioned documents, and in particular to fuller explanation of new possibilities for students. Taking into account all of it, on February, 24-28th, 2014 on page Facebook of the Ministry of Education have been given answers to the questions connected with higher education.

During this period, the Facebook page of the Ministry of education received, in total, 326 issues and through the comments were answered.

The users of Facebook had spread mainly issues related to the transfer, recovery, and an academic leave persons in higher educational institutions at steps of the bachelor and a magistracy (33 percent), with the organization of training at steps of the bachelor and a magistracy on credit system (22 percent), with changing of the form of training (7 percent), with the recognition of documents on higher education (6 percent), with activity of branches of Azerbaijani Institute of Teachers (5 percent), with the cost of training (2 percent), with training abroad (2 percent) and other questions.

This event has once again revealed the great interest among the general public to the ongoing reforms of higher education spent in the country. The Ministry of Education intends to continue this tradition, paying special attention to opinions of all layers of the population, plans to consider in the future activity all constructive proposals.
