

---

In accordance with decree No.78 of the Cabinet of Ministers of the Azerbaijan Republic of March 13, 2014, after entry of the student into the country of training, the payments according to standard terms of training at the corresponding steps of education for this country, are carried out as follows:

- *for a step of the bachelor*

Canada and Great Britain - 8 months, other countries - 9 months;

- *for a magistracy step*

Great Britain - 12 months, other countries - 10 months;

- for postgraduate study, doctoral studies, residency - 12 months

For comparison we shall note, that the last years in case students entered the country of training between 1 and 15 dates of the current month, monthly grants for grant-aided students of the State Program were paid in the same month, and in case of entrance after 15th - from the beginning of the next month. For this reason, the students who are training within the State Program less than 15 days, the grant for this month wasn't paid.

And after the new changes, besides noted standard term of training expenses on accommodation for the additional period (month or day) of training are determined by a way of multiplication of cost of monthly rate of the accommodation falling on one day, on number of additional days.

The reforms undertaken to improve the process of execution of "State Program for education of Azerbaijan youth abroad in the years of 2007/2015" will be continued in the future.
