Mikayil Mikayil rdabbarov teMinisteriuofit Education: rsleaders noftrministry tustructurals, bodiesa media representatives and independent blog journalists took part in the event.

Opening ceremony/Mikayilalabbarov/Minister of Education stated that main goal of action was archieving to fundamental changes through performance of the actions based on long termoutcomes. Important actions creating environment which will develop education quality, have been decribed in "State Strategy on Education' Development".

Stressing importance of the actions made on the direction of change and development of teaching system and teaching environment, Mikayil Jabbarov stated that core assessment of teaching should be knowledge' level.

Mentioning performance of test assessment in the capital, Minister stated that teachers haven't systematic database on methodical and communicative approach knowledges in work method with the students. Teachers in the system should be "recognized" in order to ensure objectivity of the decisions made on the teachers- there should be information about their training level, methodology and subject knowledges levels.

Minister mentioned that, itest assessment of the teachers will be applied in whole country for the next phase.

MiniMinisterEof Education stated that, asea result of the changes ton teachers intraining rplan for teacher' trining in the colleges has been decreased, mostly several specialized pedagogical schools are focused on this sphere. Goal is to direct attention on quality but not quantity.

Reforms have been implemented on the direction of recruitment of the teachers; placement of workplaces, optimization of desson burden during 2013-2014 academic years. Transperancy has been ensured, procedures on recruitment and placement of the teachers have been simplified.

MMinister of Education stated that, construction of new schools, current repair of the schools are focused. First the problems on technical equipment, facilities's supply have been settled in vocational schools as well as on several spheres. These works are performed owing to current and existing budget but not additional budget funds.

Minister touched upon the changes on the sphere of management. He mentioned that, 5 months thraining courses of school directors functioning rinBaku has been completed within framework of pilot project few days ago. Passing their examinations, they demonstrated not only traditional knowledges but also modern management levels.

WorkWorks on the direction of roptimization of content taught inceducation system, lare speing coontinued. Firstly specialized experts, SSAC expters together with traditional authorities, have been involved in assessment of the texbooks in practice. Earlier after preparation and printing of textbook, if assessment is performed consistency of this process has been developed.

Then Casarat Valehov, department head of The Ministry of Education made a speech by name "Outcomes of 2013-2014 academic years". Detailed review on action directions performed for last year in presentation, has been described.
