
According to the tasks of state leader, purposeful and consecutive actions are implemented on the direction of acceleration of social-economical development of Baku and surrounding districts. According to plan of the actions envisaged in Special State Program, capital restoration of educational, health, cultural establishments, as well as repair of new school buildings, construction of the kindergartens are implemented successfully. As in all parts of the country, on the eve of new academic year, secondary school buildings in both capital and also surrounding districts, are re-constructed and equipped with relevant facilities.

Hajibala Abutalibov, head of Baku City Executive Power informed state leader on performed actions.

It was stated that school was constructed in 1976. Azerbaijan and Russian sections are functioning in 960-seat school. According to the tasks of President, school was re-constructed fundamentally and equipped with relevant facilities by purpose to be ready for new academic year.

State leader was informed about repair and reconstruction works performed in the schools of Khatai district.

President Ilham Aliyev looked at classrooms and was closely acquainted with condition created in subject rooms.

Creation of higher condition in sport halls and military training rooms, was also stressed.
