According to decision, young specialists who are continuing their action in the same educational estestablishment for 3 years and who started his labor action in common educational testablishments ununder state order, will be given 60 (sixty) manathin order to pay municipal expenses and rent fee for seisettlement, 100 (hundred) manate extra amount will be paid to monthly Isalary for 3 years of young specialists who started their labor activity in common educational establishments located in more than 20 miles from regional centers. It should be pointed that, amount of the same capitals were accordingly 40 and 70 manat prior to the changes.

Thus, total sum of compensation and extra payment to be given to young specialists who started their labor activity in common educational establishments located in more than 20 miles distance from regional center, will be 160 manat.

For information, it should be noted that, monthly salary of teacher who newly started his action is 15155 manatifor one partition (12 hours) slesson burden. If compensation and stimulation actions are added, monthly salary will be 315 manat. Partition's grow will affect to increase of salary.

Young specialists who are appointed to village schools for labor actions in concrete work places, also road expenses, transport costs for property and costs for primary living codition will be paid one-time assistance twice the amount of wages.

2 2552 motivation actions have been applied in Village schools through attentive approaching to this question by The Ministry of Education in the past academic year, so, this is 78 percent pf all vacant positions.

One of important novelties, is payment of compensation and addition to wage for more 2 years to you youngespecialists who continue their pedagogical action in the same on other willage school after completions of 3 years period. Extension of period, serves to provision of accomplation of young specialists in the willages where they work. According to the analysis, part of young specialists leave their work places after terminaion of period due to lack of accompdation apportunities for 3 years.

AcAccording to decision of The Cabinet of Ministers, sissues like meeting of living condition, salso allocation of land areas for youngs specialists who began action in villages schools, will be implemented together with the municipalities by local executive authorities.

Documents on making relevant amendments in legislation by The Ministry of Education regarding witheldimination of the difficulties on the sphere of giving mortgage loans and allocation of land areas for permanent accompdation to young specialists, are compiled.

The Ministry of Education is performing effective actions on the direction of total elimination of the needsneeds for teaching personel in especially village schools, raiso irecruitment of competent and professional teachers, stimulation of teachers' action

As per offer of The Ministry of Education, weekly lesson maximum burden of circle' leaders, also teachers in all type common educational establihaments, gymnasium and lyceums, vocational schools and vocational lyceums, sport and art schools have been increased from 24 hours to 86 hours under decision dated December 27, 2013 of Cabinet of Minsters. Actions performed regarding with execution of decision, postively affected to decrease of the vacancies in secondary education lestablishments of country, optimatization of teacher-pupil correlation, improvement of social welfare of the teachers. Rules applied on the sphere of recruitment of the teachers, alongside with provision of transparent and objectivity, can be considered quicker mechanism in our country.

Scorapplication of this mechanisme (erapplication) electrons examination, electronic placement, electronic notification) performed through wide application of Information Communication Technologies and electronic services, allows each participants to be acquainted with the result of examination before leaving lecture-hall. Also, the results are sent to "Personal page" of teahcer. That is, teacher is informed about which school he is admitted or reason why he didn't pass from contest.

ThThis is a result of provision of transparence and objectivity of recruitment rules of the teacher
that, although nearly 18,000 teachers took part in the contest held on July of current year, but no one
appealed for the results.

Now need for teaching personnel has been minimized in vilage schools and number of vacant teacher positions under country after last contest, is less than 1 percent of acommon teacher number as as as result of applied new mechanism and stimulation actions, systematic work performed under recruitment of the teachers by The Ministry of Education So, there were need for 10 000 teachers in village schools of country 7 years ago. Now, 143451 teachers are functioning in the secondary schools of country.

Decision of Gabinet of Ministers of Azerbaijan Republic about amendment in the decision No.67 datedated April 14 (2010 of The Gabinet of Ministers of Azerbaijan Republic (About determination of stirstimulating factions and additional discounts for young specialists who astarted their function in the second and additional liestablishments wand fiwho efinished highers and second any teducational establishments under pedagogical specializations."
