Mak Making a speech in the event, Mikayil Jabbarov stressed special attention to the sphere of education at state level in Azerbaijan. "State Strategy on development of education in Azerbaijan Republic" approved by the order of our President actually proves importance given to this sphere. This document determines main challenges before our education, makes basis for the reforms under several important targets, opens the ways for development of institutional bases, infrastructure and human resources of education system.

The minister stated that, modern economical development conception requires comprehensive perspective development of business world cooperation with education sphere. Taking into account, The Ministry of Education pays special attention to development of social cooperation of business world with the employers.

Mikayil Jabbarov, reminded intensification of the issues on this sphere lately. Conducting of labor fairs for the graduates by participation of the owners in different higher education institutions, involvement of the owners in teaching in vocational institutions, increase of activity related to be trained in students' ownership institutions, are visible parts of the issues performed by The Ministry of Education on the sphere of enlargement of the relations with business world. Reminding Modern Azerbaijan "Professionals" project, Mikayil Jabbarov stated that, the specialists who were trained in vocational education institutions within framework of this project, are differed with compliance to the demand in labor market. More than 75 percent of such specialists, find job according to their specialty. It points compliance of new teaching methods to employers' expectations.

The minister stated that, compliance of modern teaching to existing labor market, is directed on elimination of personnel shortcoming in all spheres, providing of ownership objects with high level local personnel. First of all, it's necessary to enlarge the relations between the owners and higher education institutions and vocational education institutions in order to achieve the successes on this sphere. Owners directly order teaching institutions personnel on which quality they want, also directs on information according to relevant requirements. At the same time, support of the owners in involvement of the students in internship, has special importance. Training of competitive specialists who are able to compete with foreign specialists that are appropriate to world labor market, depends on level of modern practical knowledges.

The minister recommended the owners not to forget issue on training of personnel reserve while determining strategical targets of business. Support of students' innovative ideas, organization of special scholarship are the greatest contribution given to training of future pragmatic-minded specialists. Mikayil Jabbarov stressed his assurance on support of Owners (Employers) Organizations National Confederation in project of establishment of business-incubators in higher education institutions.

Mammad Musayev, the president of Owners (Employers) Organizations National Confederation, talked about condition of ownership in Azerbaijan and Memorandum signed between the ministry and mentioned body. Mammad Musayev stressed importance of creation of personnel reserve owing to talented youth and stated that he is ready to collaborate on this direction.

Mikayil Jabbarov, the minister of education and Mammad Musayev, the president of Owners (Employers) Organizations National Confederations.
