
By purpose to support in the reforms implemented by The Ministry of Education on schools' management, course "Training for potential school directors on school's management" will be conducted by UNICEF and Khazar University.

Trainings that consist of seven modules, will be conducted for three months. Regular research topics on each module will be given, evaluations will be conducted. Persons who successfully completed training will be awarded to certificate. Furthermore, participants who want to continue their studies at master level in the Khazar University in future will be given five (ECTS) credits.

Persons who obtained certificates can take part in the contest to be held on the vacancies to be occurred to the position of the directors of secondary education institutions by The Ministry of Education.

For detailed information, please see website www.khazar.org of Khazar University.
