

---

Generally, 1472 pupils on X and XI grades took part in this phase. According to contest's results, 684 pupils achieved right to take part in the zone phase.

Date of zone phase of contest will be announced by The Ministry of Education in the near future. Organization of zone phase in the centers determined by The Organization Committee is envisaged. Centers will be selected through general education institutions located in the different regions of republic.

Pupils to be participated in the zone phase, will be determined by the decision of Organization Committee under the results of first phase. Questions will be compiled in relatively complicated close test and open type format in this phase. Pupils will be given 4 hours for responding of 30 questions.

Republic phase of qualification round will be organized in the Baku branch of Moscow State University named after M.V. Lomonosov. Pupils to be participated in this phase, will be determined by the decision of Organization Committee taking into account the results of zone phase. Pupils will respond 20 complicated close test and open type questions.

It should be noted that, 47th International Chemistry Olympiad where more than 300 pupils from 80 countries will take part, will be held from July 20 to 29 in Baku. International Chemistry Olympiad has been held by participation of 5 countries first time in Czechoslovakia (present Czech Republic) in 1968. 46th olympiad held in 2013, has been organized by participation of 300 pupils from 75 countries in Hanoi, Vietnam. Azerbaijan pupils have been taking in this olympiad since 2002 and they achieved generally 24 medals including 5 gold, 5 silver, 14 bronze medals.

It should be noted that, official website of 47th International Chemistry Olympiad (<http://icho2015.msu.az/>) launched.
