10 centers (Baku, Ganja, Mingachevir, Shaki, Shirvan, Shamakhi, Agdash, Lankaran, Khachmaz and Nakhchivan) have been selected on Republic for organization of this phase. 693 pupils who obtained more than 19 points in the region, town phase on all region and towns of Republic will take part in the zone phase. Questions will be prepared by the specialists of Baku branch of Moscow State University (MSU) named after M.V. Lomonosov in relatively complicated close test and open type format. 4 hours will be allocated to the pupils for responding of 30 questions.

Responding of questions requires existence of the knowledges on physics along with the subject of chemistry because of world olympiads on chemistry are organized under deepened program. Therefore, pupils to be participated in the zone phase, are recommended to pay attention to the topics like radioactive decomposition of chemical elements, half-decomposition period, thermal effect of chemical reactions, speed, balance stability, ion-extraction of water, hydrogen indicator, pH notion, electrolysis, Faraday's laws, aromatic and heterocyclic substances, aromatic acids along with general program.

Republic phase of qualification round will be held in the Baku branch of Moscow State University named after M.V. Lomonosov. Pupils will respond 20 questions in close test and open type questions.

47th International Chemistry Olympiad where more than 300 pupils from 80 countries will participate, will be organized from July 20 to July 29 in the Baku.

It should be noted that, International Chemistry Olympiad firstly was organized by participation of 5 countries in 1968 in Czechoslovakia (present Czech Republic). 46th olympiad held in 2013, was organized by participation of 300 pupils from 75 countries in the Hanoi, Vietnam. Azerbaijan pupils have been participating in this olympiad since 2002 and they achieved generally 24 medals including 5 gold, 5 silver, 14 bronze till today.

Detailed information related to 47th International Chemistry Olympiad has been placed in the official website (<http://icho2015.msu.az/>) of olympiad.
