

---

2830 pupils are studying in 111 classes of this academic institution. In previous years, the school-lyceum had about 3200 pupils. 289 teachers work at the school, 5 of them are honored teachers, 5 of them have been named "Teacher of the Year" and 3 of them are Candidates of Sciences.

A number of innovation-oriented projects have been implemented in school-lyceum No. 20 as a Education institution. Currently, this school has been temporarily placed at the other two schools of the capital.

Due to the school-lyceum is located in the most densely populated place of Baku, it was planned to build the newly constructed building of educational institution in accordance with modern requirements. The new school building, designed for 3000 pupils and with total area of 25,000 square meters, will be put into operation for the academic year 2016-2017. The draft design and other relevant documents of school-lyceum were approved by the Executive Power of Baku City.
