AAIIworks, carried out in accordance with the AAction Plan't related to the implementation of	the
"State Strategy one development of education in the Azerbaijan Republic "create conditions for a	
establishment of a more effective learning process and ensure the transfer of the positive experience	
education, regardless of distance.	

1971 educational institutions have joined the Azerbaijan Educational Network (AEN) so far. The educational institutions, joined the Network, have been provided with high-speed Internet and their cocoordination with each tother and the agencies of the Ministry of Education within the Network have been ensured.

The teachers and pupils for schools incremote rareas have had the opportunity to use electronic reresources over the network. Access has been limited to web sites deemed harmful to schoolchildren through the internet filtering system of the "Websense" program used in the AEN.

At At the same time \$1800 desktop computers \$0.806 laptops \$4245 projectors and \$111 interactive electrelectronic boards have been idistributed throughout the country with the aim of providing ICT equipment to educational institutions in March-July 2015. New equipment is given to the teaching staff arandoadministrative personnel members, who achieved good results in the trainings held to improve literacy in the field of information and communication technologies.
