
Six Azerbaijani secondary school students will participate in the 59th International Mathematical Olympiad due to be held in the city of Cluj-Napoca, Romania, from July 7 to 14.

This edition of the Olympiad will feature 615 secondary school students from 116 countries. Azerbaijani secondary school students have claimed a total of 40 medals, including 8 silvers and 32 bronzes at the International Mathematical Olympiad so far. In 2017, Azerbaijani secondary school students ranked 42nd among 110 countries with 4 bronze medals.

Azerbaijani secondary school students' best achievement at the Olympiad was in 2010 when they grabbed 3 silvers and 2 bronzes to finish 28th in the overall medal table.

The first edition of the International Mathematical Olympiad was held in Romania in 1959, featuring 4 countries. Azerbaijani secondary school students have participated in the Olympiad since 1992.
